

RENEWABLE ENERGY

Project Feasibility Workshop

April 19th & 20th 2012 8am-5pm

Lane Community College
Center for Meeting & Learning
4000 East 30th Ave.
Eugene, OR

“Is my proposal a
*feasible renewable
energy project?*”

Join us for a two-day workshop filled with valuable technical information, useful tools and relevant resources designed to assist you in answering many of the initial questions that arise when designing and assessing renewable energy projects. Practitioners in the field will present the basics of each renewable energy technology and offer an inside look at the factors that impact feasibility. Additional presentations will cover interconnection issues, financial considerations, and assessment software.

This workshop will be offered **Free of charge** (including workbook materials & lunch) through a grant by the Oregon Department of Energy. There will be a fee for subsequent workshops.
